Printed: Thu Aug 27 2026
Estimated Lead Time: 1-3 weeks

Shipping Details:

Method: Will Call at Factory

Order Confirmation Information:

THANK YOU FOR SUBMITTING YOUR ONLINE ORDER

If you need to make any changes or corrections to the order at this "Submitted" stage, please let us know and we will return it to a "Quote" for your revisions. You can then "Submit" it again.

1.) We have calculated any additions or deductions from your quoted price, including any shipping. The Financial Summary, below right, lists those charges and/or credits.

2.) Once you have made a final check, you can let your Sales Rep know that the Order is ready to proceed:
* Reply to this email with "Approved for Production" in the body text OR
* Reply to the text message (if you received one) by typing the Order Number followed by "Approved for Production" OR
* Print the last page of this Confirmation, sign, date and FAX the page to CabParts at 970-241-7689.

3.) We will change the status in Mattersmith from "Submitted" to "Pending". You can then make a final check and, if all still looks OK, change the status of your order to "Accepted" and we will begin processing the order for production.

4.) Once "Pending" or "Accepted", the order is in process and locked. Any additional changes will require "Saving as a New Quote" with a new Order number (if available) or re-entering the Order (if not). IF YOUR ORDER IS LENGTHY OR COMPLICATED, YOU MAY WANT TO SAVE A COPY AS AN EMERGENCY BACKUP - IF THE COPY IS NOT NEEDED, IT CAN SIMPLY BE CANCELED LATER.

5.) We require a Minimum Deposit of 50% to begin the production process, order any non-stocked materials or hardware, and assign a projected ship date. Any remaining balance will be due before shipping.
